Bristle Blaster®

The Bristle Blaster is designed for professional use in the coating industry.

Each bristle tips are designed to strike the corroded surface with kinetic energy (generated by a patented accelerator bar) that is equivalent to abrasive grit blast media, thereby generating a texture and visual cleanliness equivalent to SA 2.5.

Immediately after the bristle tips strike the surface, they retract (“rebound”) from the surface, which results in both corrosion removal and micro-indentation that exposes fresh surface.

The technology is now available through a variety of machines/tools.

Bristle Blaster®

Bristle Blaster® Set Pneumatic

- Bristle Blaster® Drive Unit incl. Air Cooling System and Noise Reduction
- Adaptor Systems 23 and 11mm
- Accelerator Bars Steel, 23 and 11mm
- 5 Bristle Blaster® Belts, Steel, 23mm
- 5 Bristle Blaster® Belts, Steel, 11mm
- Air Pressure Regulators 23mm (silver) and 11mm (blue)
- Dust Exhaust Attachment
- packed in a blow mould storage case

SP-647-BMC

Bristle Blaster® Set Pneumatic

- STAINLESS STEEL -

content as above but incl. Bristle Blaster® Belts and Accelerator Bars of Stainless Steel

SP-649-BMC

optional accessory for Bristle Blaster® Pneumatic:

MONTI 360° Swivel Connector, Rp 1/4"

ZU-073

Bristle Blaster® Set Electric

- Bristle Blaster® Drive Unit Electric 900W
- Incl.: Dead-man's-Switch, Protection Cover, loop to attach a safety hook, Anti-vibration-handle
- Adaptor System 23mm
- Accelerator Bar, Steel, 23mm
- 10 Bristle Blaster® Belts 23mm
- packed in a solid PE storage case

230V / 50Hz SE-1061-BMC

Bristle Blaster® Set Electric

- STAINLESS STEEL

content as above but incl. Bristle Blaster® Belts and Accelerator Bars of Stainless Steel

230V / 50Hz SE-1061- SS-BMC

Bristle Blaster® - Cordless

Bristle Blaster® Set Cordless Set

- Bristle Blaster® Cordless drive unit
incl. Deadman-Switch, Anti-vibration-handle
- Accelerator Bar, steel, for 23mm belts
- MONTI 1 Adaptor System
- 1 Battery LiHD 18 V, 5.5 Ah & 8.0Ah
- 1 Battery Fast Charger
- 5 Bristle Blaster® belts, steel, 23 mm
- packed in PE-plastic suitcase

SB-600-BMC (5.5 Ah)

SB-603-BMC (8.0 Ah)

Bristle Blaster® Set Cordless Set – without Battery and Charger -

- Bristle Blaster® Cordless drive unit
incl. Deadman-Switch, Anti-vibration-handle
- Accelerator Bar, steel, for 23mm belts
- MONTI 1 Adaptor System
- 5 Bristle Blaster® belts, steel, 23 mm
- packed in PE-plastic suitcase

- 1) Lithium batteries are generally classified as dangerous goods. Sending by air is usually restricted. Most forwarders accept sending batteries when they are sent together with a drive unit. Weight of all batteries in one parcel must not be above 5kg. https://www.ups.com/assets/resources/media/en_GB/pack_ship_batteries.pdf
- 2) Due to restrictions for packing and sending batteries, it is usually not allowed to send batteries without a drive unit. A „Dangerous Goods contract“ will be required.

Bristle Blaster® - Double

Bristle Blaster® Set Electric - Double

- drive unit electric, 900W, 46mm (2 x 23mm)
incl. Dead-man's-Switch, Protection Cover, loop to attach a safety hook,
extra internal thread for alternative handle position
- Anti-vibration-handle
- 2 Adaptor Systems with Connector piece and screw
- Accelerator Bar, steel, for 2x 23mm-belts
- 6 Bristle Blaster® belts, steel, 23 mm
- packed in a solid PE tool case with extra space
to store other protective gear

230V 50/60Hz

SE-1000-W-BMC

Subsea Bristle Blaster

Water-driven technology provides a profiled surface which is dense, regular and angular for the mechanical bonding of protective materials against corrosion. Connected with a power unit via a single, neutrally buoyant high-pressure hose, the Subsea Bristle Blaster® creates a surface preparation grade comparable to SA2.5 or SA3, with roughness levels up to 50 µm Rz. All jobs. Produced in Durable, salt water resistant materials.

Excellent for pipeline composite reinforcements and subsea welding activity on ships, port infrastructures and subsea pipelines.

Subsea Bristle Blaster

MCT_BB200

Drive unit
Adaptor System 23mm
Packed in MONTI Blow Mould Case
4 ea. Bristle Blaster belts

Bristle Blaster water pressure unit

Deliver the waterflow and pressure suitable for Subsea Bristle Blaster down to 200mtr. depths. Single water pressure supply hose.

100-300 bar (1450-4350 psi)

20-40lpm (5,3 - 10,GPM)

Larger depths can be set up, contact supplier for calculations.

Bristle Blaster Prepper Q4

Semi -Automatic, 4ea. belts.

Speed, pressure, oscillation and rotation adjustable for removal and roughness imprint. Suitable for wall, decks, H-beams and more.

Water driven.
